

Chapter 5. TABULATIONS

Several headings in the following set of tables indicate parish and postal zone as a variable although in many cases the parish and postal zone detail do not appear.

Their distribution was excluded from this publication for reasons of space constraints; however, they are available from the Statistical Office upon request.

Similar considerations apply for distributions including other variables such as week's economic activity and main activity. When distributions for those variables are indicated in the title, but not shown in the text, they also are available upon request.
